Dr. Alex Federov  
Optimum Health Clinic  
7 North Wolf Road  
Prospect Heights, IL 60070

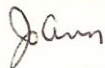

Dr Federov:

I met you at the golf show in Rosemont. After waiting in line to talk to you, I realized that you were the doctor I wanted to see for my golfer's elbow. You said it would take about three weeks to heal and that I would be out golfing again. Not only did my elbow heal, but my game has also improved with your treatments. I used to golf in constant pain.

I also wanted to comment on how impressed I was with your office manager, Dottie Losik. She was knowledgeable about your practice and answered all of my questions.

I have recommended you to several of my friends and many of my family members also intend to come see you. It is hard in this day and age to find an old fashioned doctor who believes in treating the cause of the ailment. Thank you again for curing my golfer's elbow.

Sincerely,

JoAnn
