To All Future Patients of Dr. Alex Fedorov

Four months ago I walked (or I should say crawled!) into this office on a lark because I was crippled with pain! I don't know what I was more afraid of – the pain or a chiropractor!

This day was a blessing to me!  
From the moment I walked past the entrance, I was treated with Respect and more kindness and caring than I had ever experienced at any other doctor's office before!

Dr. Alex has treated me with every bit of knowledge and skill that his four degrees and Life Experience allows him to deal with.  
Diagnosis is carefully dealt with, treatment & follow up is administered with great foresight and concern.

Dotti is so on the mark with appointments, insurance information and payments, that it's almost a pleasure to visit the Doctor!

All in all, this office is a clean, safe, honest environment to be treated at, only if you want to recover!

My name is Lyn [REDACTED] and I am a very satisfied patient of Dr. Alex and the staff at **Optimum Health Clinic!**

I will continue to frequent this office as a touchstone to my good health!

*Lyn*
