*Dr Alex Fedrov,*

*For what you have done for my back I say thank you. Your hands are a blessing from God. Your ability to address the underlying problem, alleviating pain I thought would be with me for a lifetime, amazing.*

*However, all that being said, it is your being, your spirit if you will, I appreciate the most. It is the positive nature from which you approach things. The generosity you have shown myself as well as so many others. The reminder of kindness, which sometimes the jaded forget exists. Those are the qualities you possess that make me grateful to call you "My Doctor." Thank you.*

*More than sincerely,*

A handwritten signature in cursive script that reads "Penny". The signature is fluid and elegant, with a long, sweeping underline that extends to the right.

*Penny [REDACTED] and Family*
